Fenestration Manitoba is offering the FIT – Windows Installer Training. Developed by **the AVFQ**, this training will be preparatory to the national exam for the Fenestration Canada Installer Certification Program. This certification indicates that a person has the knowledge, skills and abilities deemed necessary to perform the installer function.

WHAT ARE THE BENEFITS OF PARTICIPATING?

- Avoid the consequences of window manufacturers being linked to improper installation of their products
- Avoid significant losses due to required fixes and significant after-sales service
- Update your knowledge and stay on the cutting edge of technologies and emerging new products
- Benefit from high quality training at an excellent price
- Get valuable help to succeed at the Fenestration Canada Installer Certification Program exam

WHO IS THE TRAINING FOR?

- Window manufacturers
- Companies' installers
- Subcontracted installers
- General contractors
- Contractors specializing in doors and windows

THIS TRAINING INCLUDES:

- Course length - 3 days X 2 hours per day
- A course completely adapted to our industry
- Presented by an experienced windows installation trainer
- Virtual training conducted by ZOOM

WHAT WILL BE THE MAIN POINTS ADDRESSED?

- CAN/CSA-A440.4-07 standard
- Types of doors, windows, and skylights
- The glazing
- Preparation of work, of the work area and preparation of the products
- Removal of the existing products
- Preparation of the opening
- Fixing the product in the opening and the connection to the building envelope
- Interior and exterior finishing
- Final cleaning
- How to inform the customer
